JOB OFFER

Lleida Biomedical Research Institute is recruiting a:

- Technological personnel for the Oncogenic Signalling and Development Research Group -

The selective process is announced for the coverage of 1 position with **code 100006TG7** in the INSTITUTO DE INVESTIGACIÓN BIOMÉDICA DE LLEIDA (IRBLleida) to support research, within the **Investigo Program. Mechanism of Recovery and Resilience, with file code 2022 INV-1 00006, funded by the European Union, Next Generation EU,** and participate in the activities of the Oncogenic and Developmental Signalling research group.

The Institute

The IRBLleida aims to promote, develop, transfer, manage and disseminate research excellence, scientific and technological knowledge, teaching and training in the field of life sciences and health. To this end, it promotes relations and the exchange of knowledge between the research staff and research groups belonging to the various centres and entities in the biomedical field, which operate mainly in the Lleida area; it promotes collaboration with other institutions and entities, prioritising the implementation of joint projects; it raises funds to finance research activities of excellence of interest to the aforementioned centres and devices; and it manages the research resources entrusted to it by the various institutions and entities that form part of it. Within the territorial environment, it collaborates closely with:

- The University of Lleida (UdL) includes researchers from the Faculties of Medicine and Nursing and Physiotherapy.
- The Catalan Healthcare system includes healthcare staff from:

  o Catalan Health Institute (ICS): Arnau de Vilanova University Hospital (HUAV), the Lleida Primary Care and Community and Primary Care in the Alt Pirineu-Aran Health Region

  o Gestió de Serveis Sanitaris (GSS): Santa María University Hospital (HUSM), Pallars Regional Hospital and Mental Health, among others.

The IRBLleida is a CERCA institute with its own legal status: Fundació Institució dels Centres de Recerca de Catalunya (I-CERCA) de Catalunya, which is organised according to a model of good governance and

operation that ensures efficiency, management flexibility, recruitment and promotion of talent, strategic planning and executive capacity. It is also a Health Research Institute (IIS) accredited by the Carlos III Health Institute and the Government of the Generalitat, as established by Law 16/2003, of 28 May, on the cohesion and quality of the national health system.

In December 2014, the Lleida Biomedical Research Institute's received the 'HR Excellence in Research' logo from the European Commission. This is a recognition of the Institute's commitment to developing an HR Strategy for Researchers, designed to bring the practices and procedures in line with the principles of the European Charter for Researchers and the Code of Conduct for the Recruitment of Researchers (Charter and Code).

Please, check out our Recruitment Policy

Professional profile:

- Senior Research Technician G2.

Requirements (applications that do not comply with this point will be excluded):

- Graduate in Biomedicine, Biology, Biotechnology or related subjects.
- Be 16 years of age or older and under 30 years of age.
- Only unemployed people registered as job seekers with the public employment service of Catalonia may be hired.
- Young people who have held any type of research position in the same entity, company or group of companies within the immediately preceding 6 months may not be hired.

These requirements must be met at the beginning of participation in the program.

Context and tasks to be developed:

The Oncogenic and Developmental Signalling research group is considering a genetic approach to the mechanisms that regulate the cell signalling pathways activated by the proto-oncogene Rinde, and its regulation by the putative tumour suppressor Sprouty. As a fundamental tool, they use mutant mouse lines generated by homologous recombination. The studies cover diverse fields such as renal and peripheral nervous system development, or the biology of tumours of neuroendocrine origin.

IRB Lleida's research aims to delve into the molecular, cellular and physiological causes underlying human pathology, with a special emphasis on age-related diseases such as cancer, neurodegenerative and cardiovascular diseases. The group is interested in the molecular mechanisms by which Sprouty family genes control receptor tyrosine kinase signalling, both during embryonic development and in the induction of cellular senescence.

The successful candidate will learn standard molecular and cell biology techniques such as qPCR, DNA cloning, cell culture, western blotting, fluorescence microscopy, and will become familiar with the use of CRISPR/Cas9 technology for genomic editing. Regarding in vivo work, the candidate will become familiar with embryonic developmental study techniques, from handling mouse colonies to the analysis of embryonic development by immunodetection.

This recruitment will be carried out with funding from the "Investigo Programme", for the recruitment of young people seeking work in the implementation of research and innovation initiatives, within the framework of the Recovery, Transformation and Resilience Plan, **financed by the European Union - NextGenerationUE** and constitutes an action included in Investment 1, "Youth Employment", included in Component 23 "New public policies for a dynamic, resilient and inclusive labour market" of the Recovery, Transformation and Resilience Plan, approved by the Agreement of the Council of Ministers of 27 April 2021, and by the Council Implementing Decision on the approval of the evaluation of the Spanish Recovery and Resilience Plan (Council Implementing Decision-CID) of 13 July 2021.

Desirable but not required/ Nice to have

- Academic record of the university degree.
- Completion of a practicum of more than two months during the degree.
- Completion of the practicum in an institution other than the one in which the degree studies were carried out.
- Completion of a practicum during the master's degree of more than 2 months.
- Be in a position to obtain the master's degree during the year 2022.
- Be willing to work with genetically modified mice.
- Enthusiastic and highly motivated person.
- Ability to work in a team, organisational skills.

- Good level of English (minimum level B2 or equivalent).
- Previous experience in molecular/cellular biology research.

The Offer – Working Conditions

- Type of contract: Temporary.
- Planned start date: The contract must start at least one month after the end of the selection process and no later than December 31, 2022.
- Duration: 24 months.
- Workday: Full-time 37.5 hours per week
- Remuneration: 24.364,92 euros gross / year

We provide a highly stimulating environment with state-of-the-art infrastructures. To check out our training and development portfolio, please visit our website in the training section.

We offer and promote a diverse and inclusive environment and welcomes applicants regardless of age, disability, gender, nationality, race, religion or sexual orientation.

The IRBLleida is committed to reconcile a work and family life of its employees and are offering the possibility to benefit from flexible working hours. In addition, as a result of different company agreements, the following improvements are recognized:

- Paid leave to go to the doctor for personal health reasons.
- Paid leave to accompany a first-degree relative under 18 years of age, over 70 years of age or with first-degree disability to the doctor.
- Holidays that coincide with Saturday or Sunday are moved to the Monday immediately following.
- A special 6-hour working day is established on Holy Thursday, April 23, June 23, December 24, December 31 and January 5.

Documents and application deadline:

All applications must include:

- Blind resume.

- Submit the Self-Responsible Declaration of Compliance with all InvestiGo program requirements.
- Deadline: Please submit your application by July 31, 2022. Latest time for the submission of applications: 14:00 h - Europe/Brussels

Those interested can apply to the 044-22 offer by filling out the form available at https://www.irblleida.org/ca/job-application-investigo/ and attaching a CV.

Selection process schedule for reference 044-22	
15 days	Publication and dissemination of the job offer: IRBLleida website, social networks, other employment websites according to the features of the job offered
Next 2 working days	Transfer of the CVs to the Selection Committee
Next 5 working days	Meeting of the Selection Committee: - Interview of the pre-selected candidates - Evaluation of the candidates and meeting minutes certifying the candidate awarded with the position
Next 5 working days	Completion of the paperwork required to formalize the employment contract
Immediate	Approximate contract starting date
Express selection process	
When an employee must be replaced urgently, for instance, to cover a sick leave, scientific reasons justifying the incorporation on a specific day, specification in a resolution, etc., an express selection process could be undertaken. This selection process will follow the same procedure as the ordinary one, but the duration of several steps will be reduced, *i.e.* publication of the job offer, submission of applications, evaluation and selection process.	

The contract will be in accordance with the provisions of **article 15 of Royal Legislative Decree 1/1995, of 24 March**, approving the text of the Workers' Statute Act, in accordance with the provisions of **article 2 of Royal Decree 2720/98, of 18 December (B.O.E. of 8 January 1999), Law 12/2001, of 9 July (B.O.E. of 10 July)** and concordant provisions.

The principle of equality between men and women is taken into account, in accordance with **Organic Law 3/2007, of 22 March**, for the effective equality of women and men. IRBLleida has an Equal Opportunity Plan for men and women and a Protocol for the prevention and eradication of sexual harassment.

The principle to equal opportunities and treatment, as well as the real and effective exercise of rights by people with disabilities on equal terms with other citizens, through the promotion of personal autonomy, universal accessibility, access to employment, inclusion in the community and independent living and the eradication of any form of discrimination, in accordance with **articles 9.2, 10, 14 and 49 of the Spanish Constitution** and the International Convention on the Rights of Persons with Disabilities and the international treaties and agreements ratified by Spain, in accordance with the provisions of **Royal Legislative Decree 1/2013, of 29 November**.

IRBLleida is committed to the principles of merit-based recruitment and transparency (OTM-R) in accordance with the HRS4R seal requirements.

ANNEX I: SELECTION COMMITTEE

PRESIDENT

- Scientific Director of the Institute of Biomedical Research of Lleida
  - Dr. Diego Arango

CHAIRS

- IRBLleida researcher
  - Dr. Mario Encinas

- IRBLleida researcher
  - Dra. Carmen Espinet

SECRETARY

- IRBLleida HR manager
  - Mrs. Elena Moscatel Mendelsohn

ANNEX II: SCALE OF MERITS

a) Academic curriculum and complementary training - 45 points.

Valued:

- Academic record of the degree. It will be assessed according to the application of the following formula: 30 points

  P= Pex60/10

  Where Pe is the score of the academic record to be assessed.
- Have completed the practicum at an institution other than the undergraduate programme. 5 points
- Level of English B2 or equivalent 10 points

b) Certified professional experience - 30 points

- Completion of a practicum during the degree of more than 2 months). 10 points
- Completion of a practicum during the master's degree of more than 2 months. 10 points
- Previous research experience in molecular/cellular biology. 10 points

c) Competence test or interview – 25 points

<u>The interview will assess the aspects subject to value judgement.</u>

The evaluation of curricula vitae and candidates must be carried out through the use of **blind curricula vitae**, which guarantees the principle of non-discrimination for any reason.

The anonymous or blind curriculum vitae suppresses most of the personal data and references in order to guarantee the principles of equality and non-discrimination, and at the same time focus on the central aspects, which must be none other than the adequacy between the selective process and the functions or tasks to be performed in the specific job offered, thus dispelling any doubt of possible discrimination and guaranteeing the purity and transparency of the process.

The personal data and references proposed to be deleted in the pre-presential phase (prior to the interview) in which the candidates are selected, are the following:

- Name and surname of the person
- NATIONALITY
- Nationality
- Photograph
- Address and place of residence
- Age
- Gender
- Center of issuance of the qualifications

This requirement not to provide this information is mandatory for candidates.

Once the candidates have been selected for the interview, they will be required to submit the necessary personal references and to provide proof of all data at the end of the selection process.

Applicants responsibly declare with their application that the information they provide is true. In the event that it is detected that these data are not true, the applicants will be excluded from the selection process, without prejudice to other responsibilities that may arise.

Informative clause of personal data processing.

Responsible: Biomedical Research Institute of Lleida Dr. Pifarré Foundation (IRBLleida).

Purpose: Management of job offers.

Legitimation: The legal basis of the treatment is the realization of a selection process to fill a job vacancy.

Addressees: The data will not be transferred to third parties, except in the legal obligations marked by law.

Rights: Access, rectify and delete data, as well as other rights, as explained in the additional information.

Additional information: You can consult additional and detailed information on Data Protection on our website http://www.irblleida.org/en/legal-notice/.

The data provided by applicants will be incorporated into the processing system owned by the IRBLleida with the aim of managing and resolving the selection process, and will be treated in a lawful, loyal, transparent, adequate, relevant, limited, accurate and updated, in compliance with the provisions of Regulation (EU) 2016/679 of the European Parliament and the Organic Law 3/2018, of December 5 (LOPDGDD). The legal basis for the processing of the data is the fulfillment of a legal obligation by the data controller reinforced with the consent of the data subject.

These data must be kept for the period of time strictly necessary to comply with the aforementioned purpose, respecting in any case that determined by the present regulatory bases of the call and the applicable archiving regulations.

The IRBLleida has to communicate the data of the beneficiaries of the contracts to the Agency for the Management of University and Research Grants so that it can exercise its power of management control as an entity attached to this Department.

Certain data may also be communicated to third parties in the public or private sphere, either because the intervention of these entities in the course of the aid management process may be necessary because it is correctly resolved, or because it is provided for in a regulation with the rank of law.

As long as the interested party does not communicate the contrary, it will be understood that its data have not been modified and that it undertakes to notify the IRBLleida of any variation.

Applicants and contracted persons may exercise their rights of access, rectification, limitation of processing, suppression, opposition to the processing of their data or exercise their right to portability by writing to IRBLleida (Avda. Rovira Roure, 80, 25198 Lleida), to the e-mail address protecciodedades@irblleida.cat or to the IRBLleida's Data Protection Delegate, dpd@ticsalutsocial.cat. It is necessary to attach a photocopy of the DNI or sign the e-mail with a recognized electronic signature. In case of disagreement with the processing, you also have the right to file a complaint with the Catalan Data Protection Authority.
